Websitewww.montefioreslc.org

Parking

The garage at our Newburgh campus makes parking convenient, safe and secure. Located right on Dubois Street, the garage is connected to the hospital by an enclosed pedestrian bridge. Self-service pay stations are located on the first and third levels of the garage. Valet parking is also available at the front entrance of the hospital for a flat fee of \$5 per day. The valet service is open from 6 a.m. - 9 p.m. Monday through Friday and 8 a.m. - 4 p.m. on weekends and holidays.. When arriving for your procedure, have the person driving you utilize the valet service.

EMERGENCY DEPARTMENT

Montefiore St. Luke's Cornwall

70 Dubois Street, Newburgh, NY
(845) 561-4400

• Level III Trauma Center

Journey Through the Emergency Department

- **Registration**- You will meet a registrar who will log your complaint and place an ID BAND on you. Please leave this ID band on as it is how staff will identify you.
- **Triage**- After quick registration, you will meet with a Registered Nurse (RN), either in a treatment bay or in Triage. The nurse will assess the potential severity of your complaint and assign a Triage Category. Often, patients who arrive after you may be seen ahead of you based on this Triage Category.
- **Treatment Room/Waiting Room**- You may remain in the room you were triaged in or you may be placed elsewhere in the department. Please note that room changes are common, especially on the Fast Track side of the ED.
- **Nursing Assessment**- An (RN) will assess you further, reviewing your medical history and medications future and performing a nursing examination as needed.
- **Provider Assessment**- A physician, physician's assistant or nurse practitioner will see you and review your complaint, medical history and current and recommend a treatment plan. This may involve any or all of the following: Education, testing; i.e. labs, x-rays, or other diagnostic tests, diagnosis and treatment. Once the Provider has everything they need to make a recommendation about your care, they will inform you of the complete plan.
- **Leaving the ED**- Our team will recommend whether you will be discharged home, kept as a hospitalized patient, or transferred to another hospital. You will be kept informed of our recommendations.
